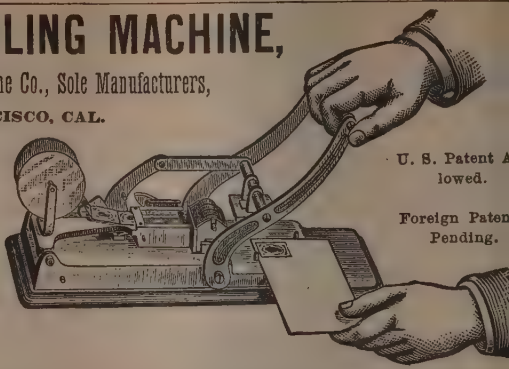
THE BORIE MAILING MACHINE,

The Borie Mailing Machine Co., Sole Manufacturers,

SAN FRANCISCO, CAL.

Affixes from 1200 to 1500 Postage Stamps or Printed Addresses in One Hour.



U. S. Patent A lowed.

Foreign Paten Pending.

Indispensable wherever there exists a large mailing list of circulars as well as correspondence.

ANYBODY CAN OPERATE IT. In the hands of the most unskilled it will affix one hundred posta stamps or printed addresses in **five minutes**, or one thousand two hundred of either in one hour.

NO PASTE. No paste is used, an ingenious device moistening the gummed side of the stamps or address tape, thus obviating all trouble and loss of time incident to the use of machines in which paste is employed, and whi require cleaning after each operation.

SIMPLE, DURABLE, PORTABLE. Besides being elegantly designed, THE BORIE MAILING MACHI is finished in a very superior manner, thereby performing its work with an ease and rapidity truly astonishing. simple, solid construction precludes all liability to derangement. Very little space is needed. The machine may operated unfastened on any desk or table.

REELING. The paper on which the addresses are printed is perforated and gummed similarly to a sheet postage stamps. This paper is then cut into strips, the ends joined one to another, and reeled, ready for use. One sm reel with hold one thousand addresses, which may include one or more sets, as desired.

The Borie Mailing Machine Company furnishes postage stamps in reels of five hundred and one thousand, maki a nominal charge for reeling. The Company is also prepared to print and reel addresses at very reasonable rates, deper ing, of course, on the amount of matter required in each address.

The attention of the Traffic, Operating and Accounting Departments of Railroad Companies is especially direct to the rapid manner in which tariffs, time schedules or circulars may be dispatched, by the use of this machne, in ma ing to station (or other) agents. For further particulars, apply to
